LUMBAR (SPINE)
Spinal Hyperextension Brace

Dicarre Spinal
Crossover

DB19

L0456 / L0457

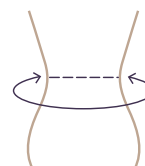

IDEAL FOR:

- > Osteoporotic dorsal spine fractures
- > Chronic kyphotic back pain
- > Juvenile Scheuermann's disease
- > Muscular injury to thoraco- lumbar region
- > Maintain correct and straight spine posture

Features & Benefits:

- > High thoracic-lumbar panel with two removable aluminium stays design to straighten the spine
- > Malleable aluminium stays can be easily bent to ensure anatomically contoured fit to the spine
- > Wrap-around shoulder straps firmly attach to abdominal panel to prevent forward spinal bending
 - > Elastic lumbar panel provides compression to lower spine and reduce lower back pain
- > Low profile rigid ergonomic posterior panel to extend from sacrococcygeal joint to T-9 vertebra
- > Ergonomic anterior plastic panel to create intra-abdominal compression and unload spinal pressure
 - > Removable side panel to achieve additional compression
