Dear Humberto Fong:

The Pricing, Data Analysis, and Coding (PDAC) Contractor has reviewed the product(s) listed above and has approved the listed Healthcare Common Procedure Coding System (HCPCS) code(s) for billing the four Durable Medical Equipment Medicare Administrative Contractors (DME MACs).

The PDAC Contractor provides coding assistance to manufacturers to ensure proper coding of Durable Medical Equipment, Prosthetics, Orthotics, and Supplies (DMEPOS). The PDAC publishes coding decisions based on the coding guidelines established by the Local Coverage Determinations (LCDs) and associated Policy Articles and any related Advisory Articles established by the DME MACs. All products submitted to the PDAC for a coding verification review are examined by coders and professionals following a formal, standardized process.

The PDAC has reviewed the above listed product(s). Based on this review and application of DME MAC policy, the HCPCS code(s) listed below should be used when billing the DME MACs:

**K0902** - KNEE ORTHOSIS (KO), DOUBLE UPRIGHT, THIGH AND CALF, WITH ADJUSTABLE FLEXION AND EXTENSION JOINT (UNICENTRIC OR POLYCENTRIC), MEDIAL-LATERAL AND ROTATION CONTROL, WITH OR WITHOUT VARUS/VALGUS ADJUSTMENT, PREFABRICATED, OFF-THE-SHELF

The description of the requested HCPCS code indicates that L1845 requires the orthosis to be customized to fit a specific patient by an individual with expertise. The product submitted for

review is considered off-the-shelf as it cannot be significantly modified beyond simple bending, trimming or cutting. This is considered off-the-shelf and meets code description for code K0902. Therefore, HCPCS code L1845 is not assigned.

Off-the-Shelf orthotics under Medicare are statutorily defined by law in Title 18 of the Social Security Act [section 1847(a)(2)(C)], and also in Federal Regulations at 42 CFR §414.402 as follows: Off-the-shelf orthotics, which are orthotics described in section 1861(s)(9) of the Act that require minimal self-adjustment for appropriate use and do not require expertise in trimming, bending, molding, assembling or customizing to fit a beneficiary. Products provided off-the-shelf are prefabricated and may require minimal self-adjustment or modifications for appropriate use.

Minimal Self-Adjustment is defined at 42 CFR §414.402 Subpart F as follows: Minimal selfadjustment means an adjustment that the beneficiary, caretaker for the beneficiary, or supplier of the device can perform and does not require the services of a certified orthotist (that is, an individual certified by either the American Board for Certification in Orthotics and Prosthetics, Inc., or the Board for Orthotist/Prosthetist Certification) or an individual who has specialized training.

Items that are considered custom-fitted are prefabricated products requiring significant modifications beyond simple bending, trimming or cutting in order to fit an individual. Custom fitted modifications may include using tools to apply high heat for bending or molding, or to modify the product. These modifications need to be performed by a person of expertise such as a certified orthotist.

This decision applies to the application we received on January 16, 2015. If information submitted in that application has changed or were to change, it could impact our decision. Therefore, a new application would need to be submitted for HCPCS coding verification review. The coding assigned in this decision letter will be available on the Product Classification List (PCL) on the Durable Medical Equipment Coding System (DMECS) within ten (10) working days from the letter's date.
